

MyEtherWallet

In this wallet, the tokens should load automatically. If not, then follow the steps below:

After you login to myetherwallet.com, click **Add Custom Token**, then fill in the following details:

Address	0x12fCd6463E66974cF7bBC24FFC4d40d6bE458283
Token Symbol	GBX
Decimals	8

MetaMask

After you login to your MetaMask Wallet, click on the **TOKENS** tab, then click on the **ADD TOKENS** button. On the Add Tokens screen, fill in the information below and click **add**:

Address	0x12fCd6463E66974cF7bBC24FFC4d40d6bE458283
Token Symbol	GBX
Decimals	8

Trust Wallet

After you login to your Trust Wallet, navigate to **Tokens** tab in the navigation tab at the bottom of the screen. Then click on the **+** (Add Symbol) on the top left of the app and fill in the information below and click **Done**:

Address	0x12fCd6463E66974cF7bBC24FFC4d40d6bE458283
Token Symbol	GBX
Decimals	8

Cipher Wallet

After you login to your Cipher Wallet, click on **+ADD TOKENS** options. You might have to scroll down to see this option if you already have different tokens in your wallet. After you click **+Add Tokens** click on **+ADD CUSTOM TOKEN**. Fill in the information below and click **ADD TOKEN**:

Address	0x12fCd6463E66974cF7bBC24FFC4d40d6bE458283
Token Symbol	GBX
Decimals	8

MIST

After you login to Ethereum Wallet / Mist, click **CONTRACTS**, then **WATCH TOKEN** to open the **Add token** window.

In **TOKEN CONTRACT ADDRESS**, enter 0x12fCd6463E66974cF7bBC24FFC4d40d6bE458283
Then, add/verify the details of the token:

Token name	Globitex GBX Token
Token Symbol	GBX
Decimal places	8

Parity

In this wallet, the tokens should load automatically. If not, you will need **Contract** tab in your Parity wallet.

Go to **Settings**, and tick the box **Contracts**. After this, you will be able to see **Contracts** in your Parity UI interface wallet.

Then:

Click on **Contracts**, then **Watch Contract**. In the pop-up window, select **Token - A standard ERC20 token**. Fill in the following details:

Address	0x12fCd6463E66974cF7bBC24FFC4d40d6bE458283
Contract name	GBX
Contract ABI	Should be filled in automatically

imToken

Since, ICO tokens don't load automatically in your imToken wallet, you can view/transfer the tokens in myetherwallet. When you have created imToken wallet, you should have saved the 12 seed words or the mnemonic phrase. Go to <https://www.myetherwallet.com/#send-transaction>, and after you click on **Memmonic Phrase**, write there the 12 seed phrase.

You have unlocked successfully your imToken wallet, in myetherwallet account. Please click **Add Custom Token**, then fill in the following details:

Address	0x12fCd6463E66974cF7bBC24FFC4d40d6bE458283
Token Symbol	GBX
Decimals	8
